

HOPE™ 1 FORMULATION

UNLOCKING THE POWER OF THE ENDOCANNABINOID SYSTEM IN US ALL

HOPE is here.

Developed with Autism spectrum disorder symptoms in mind.

HOPE 1
Calm. Focus. Clarity.

WHAT MAKES UP HOPE 1?

A mild pleasant taste of mint chocolate.

THC + CBD + Terpenes (Pinene, Valencene, & Eucalyptol)

- **Balanced CBD** levels provide anti-inflammatory, anti-anxiety and anti-seizure properties
- **Balanced THC** boosts CBD's effectiveness and provides mood enhancement
- **Pinene** Has anti-inflammatory properties, is a bronchodilator and is a neuroprotective that could aid in memory function¹
- **Valencene** has been shown to be anti-inflammatory and lower the levels of inflammatory markers in the white blood cells of the immune system.² Valencene is also a bronchodilator, which aides in oxygenation and can help promote cognitive function.³
- **Eucalyptol** is anti-inflammatory, anti-oxidant and neuroprotective. ⁴ This terpene may improve memory and positively influences cognitive abilities. Research has proven eucalyptol to be a potential treatment for Alzheimer's, as it lowered the inflammation caused by amyloid beta plaques.⁵

WHAT IS HOPE?

HOPE 1 and HOPE 2 are part of a growing family of proprietary medical marijuana formulations by Zelira Therapeutics. Our formulations are created by extracting, isolating, and then re-assembling the medicinal compounds from the marijuana plant to achieve specific, targeted effects.

WHAT FORMS OF HOPE ARE AVAILABLE?

Available as a tincture, blended in 100% organic olive oil.
